OUR FIRM

We are a full solution law firm that offers superior legal services in all areas of corporate law. We combine technique, commercial vision and empathy to navigate transactions and challenges of all levels of complexity, helping our clients and partners to always go further. From startups to global companies, from disruptive technologies to heavy industries, we don't just provide legal services: we are your business partner.

We are a people business. Our partners are among the most admired attorneys in their respective practices, and we are our clients' first choice. Our lawyers have excellent academic and professional credentials and are constantly encouraged to pursue graduate programs in Law, as well as in complementary areas such as administration, economics and accounting.

Our culture is based on integrity, cooperation, empathy and diversity. Our multidisciplinary background and extensive experience in different market segments allow us to approach each problem from all relevant angles and design strategic solutions for the most complex challenges, whenever and wherever they arise.

> *The partners are hands-on and the team is highly technical, with a deep understanding of the Brazilian market and ability to explain it to international clients*
>
> Chambers and Partners

> *The 'very competent and serious' team provides 'stellar advice'. They provide 'a very high service level', with strong expertise in several areas.*
>
> Legal 500

Diversity & Inclusion

The **Trainee Cascione** is an affirmative program aimed at recruiting and hiring law students and attorneys from underrepresented socio-economic backgrounds who self-identify as Black or Brown, fostering racial diversity within our firm and the legal profession.

Selected candidates receive targeted mentorship and participate in an educational program exclusively dedicated to the initiative, alongside the flexibility to explore their professional affinity across various practice areas within our firm.

The **Trainee Cascione** program is supervised by our Human Resources department, which independently conducts the interview and hiring processes. Following their onboarding, participants are assigned to our different practice areas based on their individual profiles.

AREAS OF EXPERTISE

ASSET MANAGEMENT AND INVESTMENT FUNDS

Our firm has a dedicated team with extensive experience in advising on matters related to asset management and investment funds structuring, providing legal support to asset managers, fiduciary administrators, family offices, consultants of securities, distributors of securities, investment independent agents and investors in general.

The activities performed by our team in matters related to **Asset Management** include:

- advice on the process of incorporation and registration of asset managers, fiduciary administrators, consultants of securities, distributors of securities and investment independent agents before the competent authorities, as well as on all regulatory and compliance aspects applicable to such services;
- advice on the structuring and preparation of compensation plans for asset management firms' professionals based on the performance of investment funds;
- advice on the legislation and regulation applicable to investments carried out by investors in general, including institutional investors, such as close-ended and open-ended pension funds and insurance companies;
- assistance in administrative proceedings in defense of the interests of asset managers, fiduciary administrators, consultants of securities, distributors of securities and investment independent agents, including before the Securities and Exchange Commission – CVM and the Financial and Capital Markets Entities National Association – ANBIMA;

The activities performed by our team in matters related to **Investment Funds** include:

- advice on the structuring, registration and maintenance of all types of investment funds, including private equity funds (FIP), receivables funds (FIDC), real estate funds (FII), investment funds in the agro-industrial productive chains (FIAGRO) and mutual funds (FIF), such as equity, foreign exchange, multimarket and fixed income investment funds;
- advice on the structuring and implementation of distribution of shares issued by investment funds in the securities market and on the structuring of investment vehicles abroad, including for fundraising purposes by local investment funds;
- advice on transactions involving the reorganization of investment funds, as well as the sale of assets that are part of their investment portfolios;
- participation and advisory in investment fund's general meetings of shareholders; and
- advice on due diligence processes to verify compliance with regulatory and contractual obligations.

Also, due to the capacity of our firm to provide legal advice to our clients in the most diverse areas of law, the **Asset Management & Investment Funds** team has the support of a multidisciplinary and highly specialized team, which is prepared to assist in the solution of all aspects related to the asset management activity and the structuring of investment funds and the assets comprising their investment portfolios, including corporate, tax, M&A, antitrust, insolvency and credit recovery aspects.

ADVOGADOS

PUBLIC LAW AND REGULATION

Our Public Law and Regulation practice has extensive experience in dealing with government entities and is qualified to meet the demands of companies in their projects aimed at the public sector, serving national and international clients in complex regulatory demands.

In the port sector, we provide services related to requests for prior approval for changes in operator control, regulatory impact analysis, administrative defenses, communications with authorities, among others.

With extensive experience in supporting the structuring and modeling of projects, we work in bidding processes, concessions and public-private partnerships, providing advice on all aspects of administrative law.

In addition, our team represents the interests of national and foreign clients before various regulatory agencies, audit courts and public entities, both in advisory and contentious matters.

- Legal assistance in the management of public contracts;
- Technical assistance in the legislative process;
- Representation before audit courts and other control authorities;
- Government contracts, bids and contracts; and
- Administrative litigation.

CAPITAL MARKETS

Our Capital Markets team has vast experience in a wide variety of operations involving securities, which enables us to advise our clients on different operations in the segment with accuracy and efficiency.

We represent the main global financial institutions, as well as publicly traded companies, hedgefunds, asset managers and investors. We advise on the issuance of public and private offers in the domestic and international markets, with the issuance of bonds and securities such as shares, debentures, ADRs, BDRs, commercial papers, bonds and notes.

Our full service structure allows us to rely on advice from various areas of the firm, such as tax, labor, regulatory, real estate, contracts, compliance and litigation to masterfully manage the risks involved in all these operations and ensure their success.

- Administrative proceedings before the Brazilian Securities and Exchange Commission (CVM);
- Compliance issues for listed companies;
- Authorization to commence business operations and registration of market participants;
- Representation of investors at shareholders' meetings;
- Securitizations;
- Initial public offerings;
- Investment funds; and
- Public and private placement of securities in Brazil and abroad.

COMPETITION AND ANTITRUST

Our Competition and Antitrust Law team provides agile and effective legal consulting concerning competition and regulatory issues, representing, with transparency and accurate technique, our clients before CADE, regulatory agencies and other Public Administration bodies. We operate in all steps of the process, from advice concerning daily commercial practices to themes related to merger control and anti-competitive practice investigation.

Our full service and multidisciplinary capacity, which gathers Public Law, Economic Law and Corporate Law experts, ensures that our assistance is agile, business oriented and, mainly lined-up with our clients' needs and goals.

- Preventive advice concerning the various commercial practices;
- Leniency and cease-and-desist agreements with authorities;
- Defense in cartel and administrative proceeding investigations related to alleged anti-competitive practices, as well as the representation in correlated indemnification suits.
- Notification of the most varied types of merger cases to CADE;
- Implementation and improvement of competition compliance programs;
- Due diligences; and
- Judicial disputes.

CONTRACTS

Our Contracts team is experienced in assisting national and international clients in a wide range of contracts. We are constantly involved throughout relevant moments of the formation, performance and resolution of conflicts of important contracts. In the formation of agreements, we assist clients in the negotiation of term sheets, memorandums of understandings and final documents. During the performance of the rights and obligations of contracts, we assist clients in legal issues and negotiations. Finally, we also help clients with contract related disputes.

Our Contracts team works closely with other areas of practice, always taking into consideration other important legal aspects, such as taxation, competition and compliance.

- Sale and purchase of assets and real estate properties;
- Collateral and security agreements in general;
- Banking and financial contracts;
- Franchise and sales representation contracts;
- Construction, built to suit, EPC and other construction related agreements; and
- Sale and purchase of goods in general.

COMPLIANCE AND INVESTIGATIONS

Our Compliance and Investigations team has extensive experience in advising national and international clients, with emphasis on negotiations with state and federal authorities, both in Brazil and abroad, working with foreign offices in multiple jurisdictions.

We provide preventive and multidisciplinary legal advice, based on the peculiarities of each sector or client, to mitigate reputational risks, developing strategies together with other teams of the firm so that our clients obtain the best solutions in line with their business.

We also have extensive experience in corporate investigations involving topics such as civil, criminal or commercial offenses, fraud and internal deviations, fraud in bids, corruption, money laundering, insider trading, front running, work accidents, moral and sexual harassment, among others.

Our experience covers all phases of the implementation and review of anti-corruption compliance programs and anti-money laundering programs, including mapping and identifying internal and external risks involving the business or its third parties, drafting and reviewing codes of conduct, internal policies and manuals, conducting ABC due diligence in M&A and capital markets transactions and background checks of third parties. For clients that do not have a compliance department, we provide direct advice to the business and legal areas.

We carry out customized training for different hierarchical levels within companies and members of the board of directors, on various topics according to the risks and needs of clients.

Our **Compliance and Investigations** team works on issues related to:

- Public Administration.
- Competition and Popular Economy.
- International Cooperation.
- Digital Law and Telecommunications.
- Electoral Matters.
- Public Faith (falsehoods).
- Corporate Fraud and Equity.
- Safety and Public Health.
- Money Laundering and the National Financial System.
- Individual Liberty and Honor.
- Bidding.
- Environment.
- Capital Markets.
- Tax and Social Security Order.
- Work Organization.
- Intangible Property.
- Consumer Relations.

CORPORATE DISPUTES

Acting in cooperation with our Litigation team, we provide state-of-the-art strategic advice on corporate disputes at pre-litigation and litigation stages, whether before administrative or arbitration courts. We seek sophisticated and efficient solutions for solving corporate disputes involving conflicts between minority and majority shareholders, abuse of controlling power, corporate governance, internal board of directors' rules, administrative and audit councils and other related matters.

Our highly qualified team has business acumen and the ability to anticipate problems and the next moves of the other side, as well as a systemic vision of organizations, partners, investors and other stakeholders of a business entity, ensuring a successful performance that guarantees our clients' best interest.

We have extensive experience in state and federal courts and in the main mediation and arbitration chambers in Brazil and abroad. A senior partner is always overseeing and monitoring the disputes. Our goal is to bring fast results and avoid the distress associated with corporate disputes that can bring deep emotional strain and high costs.

- Disagreements between partners;
- Breakdowns in business relationships;
- Unexpected successions;
- Unfair or parasitic competition;
- Use of assets for personal benefit;
- Fraud and
- Determination of assets and valuation.

CORPORATE, M&A AND PRIVATE EQUITY

Our Corporate, Mergers & Acquisitions and Private Equity practice is a benchmark in the sector for its unique combination of technical superiority, experience and personalized service. We are recognized by the main legal rankings as leaders in the area, having advised on some of the most important transactions in the country. We recently received the award for Firm of the Year in M&A Small Mid Cap by the publications Legal 500 and Leaders League.

We know that each transaction is unique and we recognize and understand the particularities of each client and their business. Our lawyers bring a practical approach, commercial vision, creativity and commitment to excellence to each matter in which we are involved.

We have experienced and qualified professionals who advise national and international companies in all phases of negotiations of complex transactions, as well as throughout the life cycle of their businesses. Our team works in synergy with the other areas of the firm, offering sophisticated solutions, mitigating risks and ensuring security in the specific needs of each transaction.

We are highly recognized professionals in the private equity area, advising investment fund managers and institutional investors, both national and foreign, as well as invested companies. We understand the particularities of the sector and know how to navigate it strategically and quickly to complete operations.

- Contracts related to mergers and acquisitions;
- Corporate reorganizations;
- Publicly-held companies;
- Foreign investments in Brazil;
- Corporate governance;
- Business contracts in general, including franchise agreements, commercial representation and distribution;
- Intellectual property;
- Legal audits;
- Private auctions;
- Joint ventures;
- Private equity and venture capital;
- Arbitration and corporate litigation;
- Succession of family businesses;
- Incorporation and maintenance of companies.

DOING BUSINESS IN BRAZIL

Our team provides complete advice to foreign clients on matters related to the legal and fiscal structuring of their business in Brazil. Thanks to our full solution capability, we offer end-to-end advice, from corporate, tax, labor, environmental and regulatory organization to conducting audit processes.

Counting with an experienced and multidisciplinary team, we assist our clients in the incorporation of legal entities in Brazil, registration of foreign investments with the Central Bank of Brazil and in the planning and implementation of corporate structures, mergers, acquisitions, spin-offs and transformations. Our attorneys are business oriented and highly experienced in greenfield projects, assisting clients from the blueprints to the delivery of the premises, and offering the modeling and design structure that best meet our clients' needs.

Our lawyers are fluent in several languages and have in-depth knowledge of the legal and regulatory systems of the corporate world, providing sophisticated and efficient solutions to foreigners seeking to navigate the complex Brazilian corporate apparatus.

ENERGY AND PROJECT FINANCE

We advise national and foreign companies, strategic and financial investors, service providers, equipment suppliers and financial institutions in a vast array of legal matters and contracts in the context of infrastructure and energy undertakings in Brazil. Our advice ranges from construction and operation agreements to regulatory assistance, project modelling and contracts, project M&A and project finance.

In particular, our lawyers have extensive experience in greenfield projects, from their preparation for the commencement of operations. Our team is multidisciplinary and is always ready to propose a project structure which, from a legal perspective, best meet our clients' goals.

Besides their solid legal expertise, our professionals are familiar with practices, standards and features of highly complex projects, which allows for an objective and swift advice. Our track-record in infrastructure projects ensures an efficient and high-quality legal service.

- Generation of electric power, mainly from renewable sources
- Electric power transmission
- Water supply and wastewater treatment
- Solid wastes
- Street lighting
- Airports
- Railways
- Ports
- Highways

- Solid waste, reverse logistics and post-consumption responsibility;
- Projects for the generation and sale of carbon credits; It is
- Legal assistance for technical studies and analyses.

ESG

Our team closely monitors the evolution of the ESG scenario, an acronym in English for environmental (E), social (S) and governance (G) factors, because our actions directly reflect our involvement with the topic: we are a people business, whose culture is based on empathy and diversity. More than a differentiator, a sustainable business environment is decisive for maintaining the trust of investors, consumers and partners, in addition to meeting society's growing demands for a more human approach to business activity.

In a scenario where ESG practice is now supported by even stricter legal and voluntary requirements, having experienced legal advice makes all the difference. We understand that profit and purpose need to go hand in hand, and that companies play a fundamental role in transforming society. We understand the peculiarities of our clients and work in a collaborative and integrated way to offer solutions to the most varied issues that may arise in the market.

Our multidisciplinary team is made up of lawyers from across our practice platform who share their robust knowledge of this rapidly evolving legal area with clients and offer full support in adapting clients to constant changes in legislation and national and international best practices. We build innovative and practical approaches to litigation, regulatory proceedings and transactions that maximize business opportunities and minimize risks, including greenwashing.

Our services include, but are not limited to:

- Environmental Law and Sustainable Business:
- Reduction of pollution;
- Circular economy – recycling, reuse, use of waste;
- Access and maintenance of water quality;
- Natural resource management;
- Adequacy of the work environment, aiming to promote the health and safety of employees and the community in general;
- Support in the implementation of sustainable jobs, including the integration of green jobs and sustainable practices;
- Defense of human rights;
- Combating work in conditions similar to slavery;
- Crisis management and reputational damage;
- Independent legal assistance to members of the board of directors;
- Internal investigations focused on violations of company policies and criminal legislation in the workplace (moral harassment, sexual harassment, discrimination);

FOREIGN DESKS

Geography is no barrier to our service. Our dedicated international desks consist of highly experienced and diligent lawyers Europe, whose specialized know-how and expertise is combined with an in-depth knowledge of local legislation. This enables us to provide the best service under competitive terms in the region.

- Real estate aspects of industrial and business projects, with special attention to administrative, fiscal and environmental issues; and
- M&As involving real estate and Shopping Center companies.

RESTRUCTURING AND INSOLVENCY

Our Restructuring & Insolvency practice provides services to domestic and international clients, of all industry sectors, in insolvency and debt restructuring cases, both in Brazil and abroad.

Our multidisciplinary team can assist clients in complex and delicate cases, involving many skills and fields of expertise. Our attorneys have an excellent background and a deep academic and practical knowledge. The thickness of our expertise was molded not only in reputable postgraduate courses and in innovative researches, but also in the award-winning practice in some of the largest and most complex restructuring cases in the last decade. Our know-how makes the whole difference when aiding clients on strategic and decisive matters and for defending their interests, as it allows us to be quick, accurate and efficient on sensitive issues. The combined efforts of our teams allow us to deliver works of any size and complexity, to handle specific issues on detail, and to develop unique and innovative ideas.

Our practice is diversified and resourceful. Our experience and expertise do not prevent us from handling each case and client as if it were the last, from paying attention to every detail, from understanding individual needs, and from thinking of intelligent and customized solutions.

- Assisting on planning, drafting and implementing strategies on matters involving debt restructurings, insolvencies, pre-packaged and court-supervised reorganizations, and bankruptcy liquidations, including on the representation in court proceedings and in creditors' meetings;
- Assisting on the preservation and recovery of credits, and on representation in enforcement measures;
- Negotiating and drafting agreements involving multiple parties, including restructuring workout agreements, collateral agreements, plans of reorganization, and pre-packaged plans of reorganization;
- Assisting on planning, structuring, assessing risk, and implementing of alternatives for:
    - acquisition of distressed companies or assets;
    - acquisition of claims against debtor companies;
    - restructuring of companies, including by means of debt-to-equity swaps;
    - concession and renegotiation of loans, guarantees and security interests, and other forms of financing of companies in distress.

TAX

Our Tax practice provides consulting and litigation services to domestic and foreign clients, individuals and legal entities, which are engaged in the most varied economic sectors. We advise clients in all aspects related to domestic and international taxation, focused on corporate reorganizations, project finance, infrastructure and energy (including renewables), capital and financial markets, and many other industries and sectors of practice.

Our professionals share the same commitment to excellence and practicality, focusing on providing an accurate and quick answer to our clients' needs and always addressing their business peculiarities. To achieve these goals, the tax team is divided in groups focused on our clients' industries and economic sectors.

We provide our clients with tailor-made solutions, including in respect to customs and social security matters, among which we can highlight:

- Tax planning and tax advisory on different domestic and cross-border transactions, including in respect to social security and customs matters, as well as tax consulting on the definition of the tax burden levied over different industries and sectors of practice.
- Tax planning and structuring on corporate reorganizations.
- Drafting legal opinions and memorandums addressing different tax matters.
- Assistance in respect to the correct fulfillment of ancillary obligations and tax returns.
- Assistance in obtaining tax and customs special regimes, and in negotiating tax incentives and adhering to tax installment agreements.
- Review of the methodologies adopted to calculate taxes and social security contribution, as well as consulting for complying with the Brazilian transfer pricing and CFC rules.
- Drafting, negotiation and follow-up of formal requests to reduce and/or eliminate Custom Duty on imports (including ex tarifario requests).
- Drafting of succession and matrimonial plans, including those intended to patrimonial protection, as well as assistance on the repatriation of values.
- Performing legal due diligences, as well as quantification of risks and exposition deriving from materialized tax liabilities.
- Drafting and follow-up of administrative defenses against tax deficiency notices and/or against decisions denying the homologation of tax setoffs.
- Management of materialized tax liabilities, including drafting and follow-up of judicial defenses/appeals against tax foreclosures.
- Drafting and follow-up of judicial measures either to reduce the tax burden or to recover overpaid/undue taxes.
- Drafting and follow-up of writs of mandamus intended to clear goods and/or restrain unfair and illegal actions practiced by tax/customs authorities.
- Assistance during tax inspections, including drafting of responses to notifications received by the taxpayer.
- Assessment of the risks of loss associated with tax cases in order to determine the need of booking provisions/reserves in one's financials and the opportunity to adhere to incentive installment programs.

TECHNOLOGY AND INNOVATION

Our Technology and Innovation area has extensive experience in the development of legal solutions to meet the daily demands and operations of our clients, as well as in responding to situations involving the digitization of corporate and personal relationships perceived over the last few years.

Our team has specialized professionals, who have multidisciplinary knowledge and experience in advising on the structuring and development of innovative products, services, complex contractual negotiations, improvement of corporate governance structures, crisis management, legal audits of companies within M&A transactions, and judicial or extrajudicial representation in matters related to technology and innovation.

Over the course of our activities, we have built a relevant track record, working with participants from various sectors, including technology companies, e-commerce, marketplaces, retail, financial institutions and payment institutions. Our experience and diversified client base allow us to efficiently and technically advise any type of demand that involves technology and innovation and consumer protection.

- Drafting or review of policies, procedures, internal documents and terms of use;
- Drafting, reviewing and negotiating complex contracts involving personal data processing activities with clients, suppliers and business partners;
- Preparation of analyses, memoranda and legal opinions on matters involving technology, innovation, data protection and cyber security;
- Interaction and representation before government entities and institutions, and regulatory bodies;
- Interaction and representation, judicial and extrajudicial, in demands and lawsuits related to technology, innovation, data protection and cyber security;
- Assistance in the development of products and services, with attention to the privacy, data protection, cyber security, consumer protection, private rights and technology;
- Legal due diligence on aspects involving technology and innovation in M&A transactions;
- Advice related to sports betting and online gaming;
- Advice related to technologies involving Blockchain and virtual assets;
- Assistance to digital platforms, marketplaces and social networks;
- Legal analysis related to Artificial Intelligence, structuring operations, products, and services, risk and legality analysis, assistance in contract development, partnerships, terms of use, policies, and others.

Denise Junqueira is a licensed attorney in São Paulo and New York.

Her experience includes several complex merger control cases, negotiation of remedies and multi-jurisdictional transactions across various industries such as telecommunication, transportation, banking, pharmaceutical, food/beverage and energy.

Denise assists clients with the design and implementation of tailored compliance programs and represents them in anti-competitive practices investigations, including abuse of dominance and cartel. She also advises clients on competitor collaborations, exchange of competitively sensitive information, merger compliance, distribution arrangements and vertical restraints.

Moreover, Denise Junqueira has extensive experience in trade matters representing clients before the Brazilian Foreign Trade Chamber. Denise advises clients in feasibility and risk analyses, as well as in investigations for the imposition of trade remedies, including antidumping, safeguards and countervailing duties. Additionally, she assists national manufacturers, importers, exporters, and any other parties intent on seeking and defending their interests before the Brazilian Foreign Trade Chamber in every stage of the investigation, from drafting change proposals to responding to the questionnaires sent out by the Subsecretariat for Commercial Defense and Public Interest.

Denise's international practice experience also covers export controls, economic sanctions and anti-corruption laws and regulations, as well as international trade compliance matters, advising local and international clients in complex commercial relationships with multiple agents and different jurisdictions.

Denise serves several foreign clients leveraging from her 5-year experience in the U.S., including positions at the U.S. Government (FTC), academia (NYU Law School), law firm and consulting firm.
